She has been a very productive cow, her 2019 calf is now a steer measuring 82" in October at just under 30 months of age. The best measuring steer we have by 3". Her two Catchit heifers are looking great and both have nice black and white color with lateral horns hooking back on the tips. She is confirmed bred to PCC Grey Eagle and should give a black or grulla calf in May or June of 2022!
